

MEMBER WELCOME PACK

HydrogenOrg Welcome Pack

Member access, benefits and onboarding guide

Welcome to HydrogenOrg. Your membership supports an independent innovation network focused on hydrogen technologies, plasma-assisted energy systems, simulation environments and strategic research collaboration.

Welcome to HydrogenOrg

Dear Member,

Thank you for joining HydrogenOrg. Your membership has been successfully activated and you now have access to HydrogenOrg member resources and services.

HydrogenOrg is building a focused environment for innovators, engineers, researchers and strategic partners working on advanced energy, hydrogen systems, plasma technologies and future industrial models.

Your membership gives you access to the tools and materials associated with your selected level. Please use this Welcome Pack as your first reference for login, password recovery, access links and support.

Member Access

Login Portal

Access your HydrogenOrg member account.

<https://hydrogenorg.ch/membership-login/>

Password Setup / Reset

Create or reset your password at any time.

<https://hydrogenorg.ch/wp-login.php?action=lostpassword>

Strategic Suite

Access the Strategic Suite when included in your membership.

<https://hydrogenorg-plasma-console-vghj5acz3ggadfybp68tah.streamlit.app/>

Tip: if the Streamlit application is sleeping due to inactivity, click the wake-up button shown by Streamlit and wait a few seconds for the application to reload.

Membership Levels

Supporter

Community support and updates. A first step into the HydrogenOrg network.

Contributor

Access to selected resources and participation in future collaborative initiatives.

Research Member

Access to research-oriented resources, reports and simulation materials.

Strategic Member

Full Strategic Suite access and priority access to advanced strategic resources.

Membership access is connected to your WooCommerce purchase and Simple Membership account status. If your access does not appear correctly, contact HydrogenOrg support.

HydrogenOrg Mission

HydrogenOrg is dedicated to advancing hydrogen technologies, plasma innovation, energy transition strategies, industrial transformation models and scientific simulation environments.

Member Principles

- Respect intellectual property and confidential information.
- Use simulation tools responsibly and for conceptual or research-oriented purposes.
- Maintain professional, constructive and respectful communication.
- Do not redistribute private member resources without written permission.

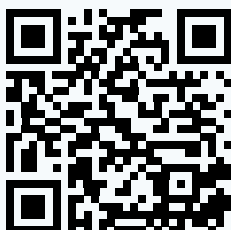

Important note

HydrogenOrg simulation outputs are conceptual and do not provide construction, safety, operational or investment instructions. All technical decisions require independent professional validation.

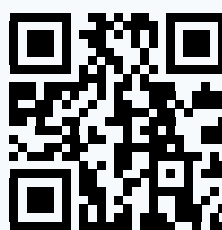

Quick Start Checklist

- Open the Login Portal and sign in with the email used for your purchase.
- Use the Password Reset link if you need to create or recover your password.
- Open your Member Welcome Center for all important access links.
- For Strategic Members, open the Strategic Suite link after login.
- Contact support if any membership level or access page appears incorrect.

Login Portal

Member Support

Thank you for supporting HydrogenOrg.
